

**THE WAIT IS OVER – IM CONSULTS NOW AVAILABLE**

**BOARD-CERTIFIED INTERNAL MEDICINE SPECIALIST**

Our new internist, Dr. Kim Hooi, is now available full-time for referrals for internal medicine consults. Dr. Hooi is also happy to consult with you about difficult internal medicine cases to determine if a referral might be beneficial. Read Dr. Hooi's bio at [bbvsh.com/hooi](http://bbvsh.com/hooi).

**HELP WITH DIFFICULT CASES**

Internists perform advanced diagnostics and therapeutics and create treatment plans to help you manage patients that are not easily diagnosed, that do not respond to standard treatments, or have multiple disorders.

**SPECIALIZED AND MINIMALLY-INVASIVE DIAGNOSTICS**

- Respiratory, upper and lower GI, and urinary tract endoscopy
- Endoscopic foreign body retrieval and biopsies
- Bone marrow aspirates and biopsies

**IMAGE-GUIDED PROCEDURES AND INTERVENTIONS**

- Tracheal and urinary tract stenting
- Feeding tube placements
- Stricture dilation

**TEAM-ORIENTED APPROACH**

Our internist works closely with other on-site specialists in critical care, surgery, radiology, oncology, cardiology, and neurology to provide timely, collaborative, seamless care.

**PATIENT AND CLIENT FOCUSED CARE**

Our new internist is committed to ensuring continuity of care with consistent client and primary care veterinarian communication.

**HOW CAN IM HELP?**

- Patients with refractory diabetes, blood disorders, infections, digestive tract problems, hormone/endocrine or immune disorders, diseases of the kidney, liver, gallbladder, lungs and urinary or reproductive tracts may benefit from the specialized diagnostics and treatments that an internist performs.

**DID YOU KNOW?**

- BBVSH has specialized diagnostic equipment including an on-site 64-slice CT scanner, an on-site high field (1.5T) MRI and coming soon a C-ARM fluoroscope for interventional procedures.

**HOW TO REQUEST A REFERRAL**

- Please fill out the referral request form (available as a PDF or online form) at [bbvsh.com](http://bbvsh.com)
